The author regrets that in the above published paper an error occurred on page 605. In the first column, the second finite equation

\[
\frac{df(z_i)}{dz} = \frac{1}{24\Delta z} \left[ -6, -20, 36, -12, 2 \right] \odot \begin{bmatrix}
    f_{i-3} \\
    f_{i-2} \\
    f_{i-1} \\
    f_i \\
    f_{i+1}
\end{bmatrix},
\]

should read

\[
\frac{df(z_i)}{dz} = \frac{1}{24\Delta z} \left[ -2, 12, -36, 20, 6 \right] \odot \begin{bmatrix}
    f_{i-3} \\
    f_{i-2} \\
    f_{i-1} \\
    f_i \\
    f_{i+1}
\end{bmatrix}.
\]

Note that this error is only in the text of the paper and the finite differencing scheme in the Method of Lines template has been implemented correctly.

I would like to thank Professor William Schiesser, Lehigh University, Pennsylvania for bringing our attention to this error.
