We recently noticed an error in the Methods section of this paper. In Fig. 3, the label in the upper left panel should read “BA40” not “BA46” and the label in the upper right panel should read “BA24” not “BA46.”

The figure has been reproduced here for the reader’s convenience.
Fig. 3. Depiction in three dimensions of the four brain areas where there is a significant correlation between HF-HRV and rCBF across all conditions. Cross-hairs are located at the local maximum in each cluster.
