Erratum

Xian-Fang Li

Institute of Mechanics and Sensor Technology, School of Civil Engineering and Architecture, Central South University, Changsha, Hunan 410083, China

With regret, the original article was published with errors.

1. Eqs. (61) and (62) should read

\[ K^L_C = \frac{2\tau_0 K(k)}{\pi} \sqrt{2h \tan \left( \frac{\pi a}{2h} \right) \cot \left( \frac{\pi b}{2h} \right)} \frac{\cos \left( \frac{\pi b}{2h} \right) \cos \left( \frac{\pi b}{2h} \right)}{\sqrt{\cos^2 \left( \frac{\pi b}{2h} \right) - \cos^2 \left( \frac{\pi a}{2h} \right)}} , \]

\[ K^R_C = \frac{2\tau_0 K(k)}{\pi} \sqrt{2h \cot \left( \frac{\pi b}{2h} \right)} \frac{\cos^2 \left( \frac{\pi a}{2h} \right)}{\cos \left( \frac{\pi a}{2h} \right) \sqrt{\cos^2 \left( \frac{\pi a}{2h} \right) - \cos^2 \left( \frac{\pi b}{2h} \right)}} . \]

2. Two equations in line 3 on page 972 should read

\[ K^L_C = \frac{2K(k)}{\pi} \sqrt{\tan \left( \frac{\pi a}{2h} \right) \cot \left( \frac{\pi b}{2h} \right) K^R_C} , \]

\[ K^R_C = \frac{2K(k)}{\pi} \sqrt{\tan \left( \frac{\pi a}{2h} \right) \cot \left( \frac{\pi b}{2h} \right) K^L_C} , \]

3. Figs. 2(b), 3(b), and 4 in the original article are incorrect, and the corrected figures are shown below:
4. The discussions associated with the above figures in Section 4 should be modified.
Fig. 4.

- A central crack in a strip
- Stress-free boundaries
- Clamped boundaries

The normalized stress intensity factors vs. $h/l$.
