

Lies of Dr. Gaya Prasad and Party: Part 2

Corruption in FMD vaccine and FMD CP in India: Lies & lies by Dr. Gaya Prasad (presently VC at SVBPUA&T, Meerut, earlier ADG Animal health at ICAR, Act. Director of IVRI, Izatnagar, Prof. and Head Department of Biotechnology at Haryana Agric. University, Hissar) and party. The Deceivers

As you know that Dr. Gaya Prasad was the chairman of the committee that countered the report submitted by CCS NIAH, Baghpat (https://www.researchgate.net/publication/267705649_Testing_of_FMD_Vaccine_intended_to_be_used_under_FMD-CP_of_Govt_of_India_at_CCS_NIAH_Baghpat_UP_India) on substandard quality of the FMD vaccine used for FMD CP all over India at expense of Central Government.

In this series we will talk about the collusion of the committee with the suppliers of substandard FMD vaccine and compilation of lies in the report submitted by the committee ([file:///C:/Users/JD%20CADRAD1%202013/Downloads/GoI%20Expert%20Committee%20report%202015%20\(1\).pdf](file:///C:/Users/JD%20CADRAD1%202013/Downloads/GoI%20Expert%20Committee%20report%202015%20(1).pdf)) to bluff the department, to cheat the farmers and the Nation, and to benefit the companies, and punish the honesty and honest scientist. Now you need to decide who is unscrupulous.

Today we will take on just two of the many lies of the Dr. Gaya Prasad Committee

- 1. The committee barks on page 3 at point 8: --Dr. BR Singh/ CCS NIAH did not have the approval from the competent authority in DADF, GOI to undertake stability and sterility testing and doing research on FMD vaccine.**
- 2. At page 4 point 13 the committee wrote -----There was every chance of contamination from the environment. The sterility test results were simply mentioned as yes/ no -----.**

- 1. Now friends for Point 1 at page 3 at no. 8 above, please read the DADF Annual reports of three earlier years before my posting (May to November 2014) and of the year of my posting:**

- A. Column 1 of page 38 of DADF Annual Report 2011-12 (http://dadf.gov.in/sites/default/files/Annual%20Report%20English%202011-12%20%202011_0.pdf):**

The Institute has started functioning and is carrying out the following activities.

The virology laboratory has been made functional with facilities for testing of quality assurance of FMD vaccine by way of testing of serum samples by LPB-ELISA and sterility of vaccines.

- B. Again see at column 1 of page 39 of DADF Annual Report 2013-14 (http://dadf.gov.in/sites/default/files/FINAL%20ANIMAL%20AR%202013-14%20FOR%20WEB%20%202014_0.pdf)**

3.19.2 The National Institute of Animal Health (NIAH) has been established at Baghpat, Uttar Pradesh to undertake the testing of vaccines and biologicals for their quality. The Institute has started functioning and is carrying out the following activities: • The virology laboratory is functional with facilities for testing of quality assurance of FMD vaccine by way of testing of serum samples by LPB-ELISA and sterility of vaccines. Institute has tested the FMD vaccine for sterility, safety and potency

- C. Please see column 2 of page 39 of DADF Annual Report of year 2014-2015 (http://dadf.gov.in/sites/default/files/Animal%20Husbandry%20English%202014-15%20%201_0.pdf.**

3.6.2.1 The Chaudhary Charan Singh National Institute of Animal Health (CCSNIAH) has been established at Baghpat, Uttar Pradesh to undertake the testing of vaccines and biologicals for their quality. The Institute has started functioning and is carrying out the following activities: a) **The virology laboratory is functional with facilities for testing of quality assurance of FMD vaccine by way of testing of serum samples by LPB-ELISA and sterility of vaccines.** b) The bacteriology laboratory is also functional to carry out the quality control testing of BQ, HS and Enterotoxaemia (ET) vaccines. c) The Poultry vaccine-testing laboratory has been established with standardization of tests for the New Castle Disease vaccine (Live) and Infectious Bursal Disease (IBD) vaccine.

Dear Friends, please now look at the website of CCS NIAH, Baghpat welcome page (<http://ccsniah.gov.in/>):

It reads “-----CCS NIAH has a committed group of scientists which endeavors to provide best services to the stakeholders for quality control testing of veterinary biologicals, following testing protocols as per Indian Pharmacopoeia 2014 and Drugs & Cosmetic Act 1945.-----”.

The website speaks (<http://ccsniah.gov.in/About.html>): “Chaudhary Charan Singh National Institute of Animal Health (CCS NIAH), Baghpat was established by the Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture & Farmers Welfare, Government of India, under the sub scheme “Establishment of National Veterinary Biological Products Quality Control Center”, under the Central Sector Scheme “Directorate of Animal Health” as a national facility for quality assessment of veterinary vaccines and diagnostics to be used in India.”

At <http://ccsniah.gov.in/History.html> it speaks about:

“-----The foundation stone for the laboratory was laid on the 2nd March 2003 by the then Hon’ble Union Minister for Agriculture, Shri Ajit Singh.----- The project was inaugurated by the Hon’ble Union Minister for Agriculture, Cooperation and consumer Affairs on the 1st september, 2010.”

The Institute having Mission (<http://ccsniah.gov.in/Mission.html>)

Achieve excellence in quality control and assurance of standard, efficient and safe veterinary biologicals in India.

Harmonize the quality of veterinary vaccines and diagnostics in India as per global standards.

And the mandates <http://ccsniah.gov.in/Mandate.html> are defined as:

- To act as a nodal institute to recommend licensing of veterinary vaccines in the country.
- To make available facilities for quality control of veterinary vaccines and diagnostics.
- To make available standards for veterinary biologicals and diagnostics

2. Dear friends, for Point 2 at page 4 no. 13, please look the at following:

The facilities at CCSNIAH, Baghpat (<http://ccsniah.gov.in/Facilities.html>; <http://ccsniah.gov.in/LaboratoryBlock.html>).

The campus of CCS National Institute of Animal Health has two blocks namely Administrative and Laboratory Block. Laboratory block consists of BSL-2 and BSL-3 and is connected to the animal house for large and small animal provided with containment ABSL-2+ facility. The Laboratory block is supported with HVAC, LTDP, ETP, incinerator, fire-fighting and alarm systems and an Electric substation. Other supporting facilities are library, conference hall and internet through Wi-Fi.

The laboratory block has been divided into office area and laboratory area which is further split into BSL-2 & BSL-3 areas. The laboratories have been designed so as to comply with the safety requirement to allow management of potentially hazardous substances as well as evacuation of the staff with minimum risk, if the need arises. The containment facility of lab has well equipped HVAC, installed to maintain appropriate negative pressure, temperature required to meet the specific requirement of the activities being carried out. The HVAC system has dedicated units for BSL-2, BSL-3, small and large animal house and also has incorporated building management system for monitoring and control of temperature & humidity.

BSL-2 LAB

The BSL-2 area has clearly demarcated preparatory & containment facility. The preparatory area has segregated rooms meant specifically for washing & sterilization, holding and performing works on virus and bacteria not requiring contained environment. There is also separate cold room for storing of vaccines and serum samples etc. The containment facility of the BSL-2 area is well designed & equipped facility meant suitably for agents involving moderate potential hazard to personnel, animals & environment with minimum economic loss to animal industries. The BSL-2 labs are provided with BSCs, PPE as primary barrier with secondary barrier being provided by walls, doors & well equipped AHUs which ensure negative pressure of -15 Pas to -50 Pas for bio-safety. For sterility testing of vaccines there is an entirely separate facility with dedicated AHU. Also there is decontamination room at the end of the BSL-2 containment area intended for decontamination of the infected material.

BSL-3 LAB

Like BSL-2, BSL-3 also has designed preparatory & containment facility. The preparatory area has washing & sterilization area, egg preparatory room, virology lab, media preparatory lab. The containment facility of BSL-3 lab is suitable for handling high risk pathogens which are highly infectious and harmful for animals & human health but safeguard the environment as well as lab personnel. The containment area has facility to conduct quality control testing of bacterial vaccine (aerobic & anaerobic), viral vaccine (large & small) and poultry vaccine of risk group-III organisms. In BSL-3, provision of dedicated rooms for conducting sterility & cell culture work is also there. The area of BSL-3 has a provision for 100% exhaust for total environmental protection by the way of filter in the exhaust with BIBO provision. The additional

feature of the BSL-3 containment is CIF and decontamination within the area. All the preparation of challenge organism required for potency testing of vaccine falling in the category are handled in the BSL-3 labs.

Dear friends just see the outlay of expenses incurred on maintenance of the facilities at CCS NIAH in 2012-13, 2013-14 and also now days. (These are not exact figures but almost true):

Operational expenses at CCS NIAH Baghpat

Operational expenses: ~ ₹2 crore per year, From 2013 onward

HVAC (Heating, Ventilation and Air Conditioning) Plant maintenance: ~ ₹33 lakh/year (Hepa filters were changed only in early 2014 for Rs. 30 L)

LTDP (Liquid Thermal Decontamination Plant) maintenance ~ ₹4.5 Lakh/ year

ETP (Effluent Treatment Plant) maintenance: ~ ₹9 lakh/year

Incinerator maintenance: ~ ₹3.5 Lakh/ year

Civil structure maintenance: ~ ₹15 lakh/ year

Fire fighting and Fire alarm system maintenance: ~ ₹5 lakhs/ year

Electrical substation maintenance: ~ ₹15 Lakh/ year

Electricity charges: ~ ₹80 Lakh per year.

Now dear all, you should decide, how many and how big lies Dr. Gaya Prasad (self acclaimed honest personality) and party wrote:

- Is it not forgery/ frauds, putting wrong information to the people?
- Is it not mal-intention to benefit the producers of substandard vaccine?
- Is it not cheating with the nation and poor farmers (consumer of FMD vaccine)?
- Is it not an anti-National act of Dr. Gaya Prasad Committee?
- Does Dr. Gaya Prasad not know what is the definition of mandates and Mission of an Institute?
- Do there is the need of permission for the Director of the Institute from anybody to accomplish the mission of an Institute and fulfil its mandates?
- Does Dr. Gaya Prasad not understand BSL-3 norms?
- Does Dr. Gaya Prasad not know that about 2 Crore rupees is the annual maintenance cost of the laboratory facility of CCS NIAH?
- Does Dr. Gaya Prasad not understand the meaning of putting something on record (work record at CCS NIAH) as Annual report of a Government of India department (DADF)?
- Does the information about work done at CCS NIAH get entered in DADF Annual reports (2011-2015) without the knowledge of DADF? Or the Committee members could not see and read?

No, friends, nothing was wrong, everything was in order at CCS NIAH and was in knowledge of the Government of India, what we were doing at CCS NIAH, but collusion of the Committee and some officials at DADF and ICAR was force behind false reporting by Dr. Gaya Prasad and Party.

There are other documents like letter from officers from DADF for testing the vaccine, communications about the ongoing testing with me but they are not of much relevance here. Those may be documents for the Honourable Court to decide the identity of people involved in this scam and bluffing the country and farmers of the country under FMD-CP.

Dear Friends you yourself have to think what should be done with such people.

डाक्टर गया प्रसाद समिति के काले कारनामे और FMD वैक्सीन के घोटाले-

Part 2

जैसा कि आप सभी जानते हैं कि डाक्टर गया प्रसाद की अध्यक्षता में एक समिति CCSNIAH बागपत द्वारा घोषित

(https://www.researchgate.net/publication/267705649_Testing_of_FMD_Vaccine_intended_to_be_used_under_FMD-CP_of_Govt_of_India_at_CCS_NIAH_Baghpatt_UP_India) अधोमानक FMD वैक्सीन की पुनः जाँच के लिए बनाई गई थी. और समिति ने जाँच करके बताया था कि CCSNIAH में की गई जाँच सही नहीं थी, और वैक्सीन सही थी

([file:///C:/Users/JD%20CADRAD1%202013/Downloads/GoI%20Expert%20Committee%20report%202015%20\(1\).pdf](file:///C:/Users/JD%20CADRAD1%202013/Downloads/GoI%20Expert%20Committee%20report%202015%20(1).pdf)). उसके उन्होंने कई कारण गिनाए हैं.

आज हम उनमें से दो की बात करते हैं.

1. समिति रिपोर्ट में पेज 3 पर क्रम 8 पर लिखती है ----डॉक्टर भोज राज सिंह के पास भारत सरकार (पशु पालन, डेरी एवम मत्स्य पालन विभाग) से FMD वैक्सीन को टेस्ट करने की अनुमति नहीं थी.
2. समिति रिपोर्ट के पेज 4 क्रम 13 पर लिखती है कि CCS NIAH, बागपत की प्रयोगशाला में संक्रमण का खतरा था.

आप देखिए कितना सच और कितना झूठ था इसमें.

आपत्ति संख्या 1 के सन्धर्भ में आप भारत सरकार के पशु पालन, डेरी एवम मत्स्य पालन विभाग की वार्षिक रिपोर्ट 2011 से 2015 तक देखिए:

रिपोर्ट में 2011-12 में पेज 38 पर भारत सरकार (DADF) ने लिखा (http://dadf.gov.in/sites/default/files/Annual%20Report%20English%202011-12%20%20%2011_0.pdf) कि CCS NIAH, बागपत ने कार्य करना शुरू कर दिया है और वहाँ ELISA and sterility पद्धति से FMD वैक्सीन टेस्टिंग की सुविधा है.

2013-14 की रिपोर्ट पेज 39 पर भारत सरकार (DADF) ने लिखा कि (http://dadf.gov.in/sites/default/files/FINAL%20ANIMAL%20AR%202013-14%20FOR%20WEB%20%20%204_0.pdf) CCSNIAH में FMD वैक्सीन सेफ्टी, पोटन्सी और स्टरिलिटी की जाँच की गई.

2014-15 की रिपोर्ट पेज 39 पर भारत सरकार (DADF) ने (http://dadf.gov.in/sites/default/files/Animal%20Husbandry%20English%202014-15%20%201_0.pdf) लिखा कि CCSNIAH में FMD वैक्सीन की जाँच ELISA और स्टरिलिटी विधि से की जा रही है.

अब आप ज़रा CCSNIAH की वेबसाइट जो भारत सरकार की मान्यता से बनी है पर क्या लिखा है (<http://ccsniah.gov.in/>):

भारत सरकार ने CCS NIAH, बागपत का निर्माण पशुओं में प्रयुक्त होने वाली वैक्सीन की गुणवत्ता की जाँच के लिए कराया है. और इस सुविधा को 1 सितंबर 2010 को माननीय केंद्रीय कृषि मंत्री ने राष्ट्र की सेवा में समर्पित किया. इस संस्थान का उद्देश्य पशुओं में प्रयुक्त होने वाली वैक्सीन को अनुमन्य करने और उनकी गुणवत्ता जाँचने का है.

आपत्ति संख्या 2 के सन्धर्भ में आप CCSNIAH की वेबसाइट पर देखें (<http://ccsniah.gov.in/>): CCS NIAH में BSL-2, BSL-3 स्तर की प्रयोगशालाएँ कार्यरत हैं और इन्हें HAVC, LTDP, ETP, भ्रमक यंत्र, अग्नि सुरक्षा और अलार्म यंत्रों की सहायता से कार्यकारी अवस्था में रखा जाता है. मित्रों आपको यह भी बताना उचित होगा की इस संस्थान की प्रयोगशालाओं को कार्यशील रखने में प्रति वर्ष लगभग दो करोड़ रुपए व्यय होते हैं.

मित्रों, अब सवाल उठता है कि डॉक्टर गया प्रसाद ने इतना मुह भर-भर कर झूठ क्यों लिखा:

- क्या यह भारत की जनता के साथ धोखा और गद्दारी नहीं है?
- क्या यह घटिया FMD वैक्सीन बनाने वालों को बचाने की साजिश नहीं है?
- क्या यह देश के किसानों के साथ गद्दारी नहीं है?
- क्या यह देश के साथ गद्दारी नहीं है?
- क्या डॉक्टर गया प्रसाद को नहीं पता कि किसी संस्थान को दिए गये उद्देश्यों को पूर्ण करने के लिए उसके निदेशक को पुनः पुनः अनुमति की आवश्यकता नहीं होती?
- क्या डॉक्टर गया प्रसाद को पता नहीं कि BSL-2 और BSL-3 प्रयोगशाला का रख-रखाव कैसे होता है और इन प्रयोगशालाओं का मतलब क्या होता है?
- क्या डॉक्टर गया प्रसाद को नहीं पता कि CCS NIAH में प्रयोगशालाओं की गुणवत्ता उचित रखने के लिए ही प्रतिवर्ष दो करोड़ रुपये व्यय होते हैं और हर महीने लगभग 8 लाख का बिजली का बिल जाता है.

नहीं मित्रों उन्हें सब पता है, उन्हें पता था कि CCS NIAH में जो भी FMD वैक्सीन जाँच हो रही थी वो भारत सरकार की मर्ज़ी से, भारत सरकार की जानकारी में और भारत के सर्व सुविधा युक्त संस्थान में हो रही थी. परंतु पहले की तरह और IVRI बंगलोर की तरह बगैर जाँच किए ही FMD वैक्सीन पास नहीं किया गया तो साहिब लोगों को गुस्सा आना तो लाजिमी था सो आया. गुस्से में इंसान क्या नहीं करता, अतः डॉक्टर गया प्रसाद ने झूठ पर झूठ बोला तो क्या गुनाह किया. चाहे फिर उस झूठ की वजह से देश डूबे, दुनिया मरे, भारत के पशु मरें या फिर इंसानों में बीमारियाँ पलें उन्हें तो कुलपति बनना था तो बन गये.

मित्रों, यही सब सारे प्रमाण नहीं है, अदालत में देने के लिए भारत सरकार के सयुक्त सचिव एवम दूसरे अधिकारियों के आदेशों की प्रतियाँ भी मेरे पास हैं जहाँ निर्णय होगा की इस घोटाले में डॉक्टर गया प्रसाद के अलावा और कौन कौन मलाई खा गए.

परंतु मित्रों, न्यायालय कब और कैसे और क्या करेगा ये तो भविष्य की बात है. आप अपने भविष्य के लिए ऐसे लोगों के साथ क्या करेंगे ये तो आप ही जान सकते हैं. अपने पशुओं को मरने देंगे, अपने बच्चों का स्वास्थ्य खराब करने वालों को महिमा मंडित करेंगे, उन्हें कुलपति बनाएँगे, या उन्हें कुछ और बनाएँगे, आप ही जानें. डॉक्टर भोज राज तो अंतिम सांस तक अन्याय के विरुद्ध है, और रहेगा, देश के दुश्मनों को, भारत के गौ हत्यारों को सज़ा मिलने तक.
