June 3, 2014
Hyderabad, India
Message from the Chairs

RAISE workshop series aim at bringing together researchers and industrial practitioners to exchange and discuss the latest innovative synergistic artificial intelligence (AI) and software engineering (SE) techniques and practices. This workshop is the third in the series and continues to build upon the work carried out at the previous implementations of RAISE, which were also co-located with ICSE in 2012 and 2013.

RAISE workshop has received 20 submissions this year. After careful evaluations and discussions by the international program committee (four reviews per submission), nine papers were accepted to be included in the workshop program. We are looking forward to an interactive and productive workshop to continue developing a roadmap of strategic research directions for AI and SE with our exciting program including a keynote address to be delivered by Nazim Madhavji (Professor, University of Western Ontario).

We would like to thank all authors who submitted their papers to RAISE 2014 and the members of the program committee for their service. It was their careful and detailed evaluations that made it possible to put together an exciting and high quality workshop program. We would also like to emphasize our gratitude for the RAISE Steering Committee and Organizing Committee: a great team of reputable scholars, continuously striving for the excellence and success of this workshop series.

In the third year of collaboration between RAISE and ICSE, we welcome you once more and wish you a very productive and interactive workshop.

Burak Turhan and Çetin Meriçli,
RAISE 2014 Program Co-Chairs
RAISE 2014 Organization

Organizing Committee

General Chair
Ayşe Bener
Ryerson University, Canada

Program Co-Chairs
Burak Turhan
University of Oulu, Finland
Çetin Meriçli
Carnegie Mellon University, USA

Publicity Co-Chairs
Andriy Miransky
Ryerson University, Canada
Leandro Minku
University of Birmingham, UK

Program Committee

H. Levent Akın
Boğaziçi University, Turkey
Ayşe Bener
Ryerson University, Canada
Francisco Chicano
University of Malaga, Spain
Bojan Cukic
West Virginia University, USA
Daniela da Cruz
University of Minho, Portugal
Onur Dikmen
Aalto University, Finland
Massimiliano Di Penta
University of Sannio, Italy
João Pascoal Faria
Universidade do Porto, Portugal
Mark Harman
University College London (UCL), UK
Rachel Harrison
Oxford Brookes University, UK
Israel Herraiz
Technical University of Madrid (UPM), Spain
Jacky Keung
City University of Hong Kong, Hong Kong
Ekrem Kocagüneli
Microsoft, USA
Jouni Markkula
University of Oulu, Finland
Tim Menzies
West Virginia University, USA
Tekin Alp Meriçli
Carnegie Mellon University, USA
Marjan Mernik
University of Maribor, Slovenia
Leandro Minku
University of Birmingham, UK
Andriy Miransky
Ryerson University, Canada
Mika Qvis
Elektrobit Wireless Ltd., Finland
Daniel Rodríguez
University of Alcalá, Spain
Alessandra Russo
Imperial College, UK
Jaakko Sauvola
University of Oulu, Finland
Walter Tichy
Karlsruhe Institute of Technology, Germany
Yuming Zhou
Nanjing University, China
