Erratum

Erratum to “3-D QSAR Analysis of Inhibition of Murine Soluble Epoxide Hydrolase (MsEH) by Benzoylureas, Arylureas, and their Analogues”: [*Bioorg. Med. Chem.* 8 (2000) 2663][†]

Yoshiaki Nakagawa,^{a,*} Craig E. Wheelock,^{a,b} Christophe Morisseau,^b
Marvin H. Goodrow,^b Bruce G. Hammock^b and Bruce D. Hammock^b

^a*Division of Applied Life Sciences, Graduate School of Agriculture, Kyoto University, Kyoto 606-8502, Japan*

^b*Department of Entomology, University of California, Davis, CA 95616, USA*

The publisher regrets that due to an error in the production process, the term “log *P*” has been omitted from three sentences in the above manuscript. The correct text is given below:

Page 2663, line 16 of the Abstract should read, “The addition of the molecular hydrophobicity, log *P*, to CoMFA did not improve the correlation significantly”.

Page 2665, line 6 of the right column should read, “The hydrophobic effects were examined using either HINT terms or log *P* values as an additional independent variable”.

Page 2665, line 10 of the right column should read, “The correlations of the biological activity index with the lattice variables and log *P* were analyzed by the partial least squares (PLS) method with a column filtering setting of 2 kcal mol⁻¹”.
