Antibiotic resistance in clinical and environmental isolates of *Aeromonas* spp.—D. V. Singh and S. C. Sanyal

Treatment of murine pulmonary mucormycosis with SCH 42427, a broad-spectrum triazole antifungal drug—L. Z. Goldani and A. M. Sugar

Immunomodulatory effect of cefminox—I. Corrales, L. Aguilar, R. Mato, J. Frias and J. Preito

*Listeria monocytogenes* CAPD peritonitis: failure of vancomycin therapy—C. Banerji, D. C. Wheeler and J. R. Morgan

Book reviews
The effect of fluconazole prophylaxis on fungal colonization in neutropenic cancer patients
P. H. Chandrasekar, C. M. Gatny and the Bone Marrow Transplantation Team

Brief reports
In-vitro activity of trospectomycin, a new aminocyclitol antibiotic, against multidrug-resistant Enterococcus faecium
N. Mobarakai, D. Landman and J. M. Quale

Activity of aminosidine (paromomycin) for Mycobacterium tuberculosis and Mycobacterium avium

Resistance and permeability of Mycobacterium avium complex species to 5-fluorouracil
S. Abdulmalek and C. M. McCarthy

The release in vitro of vancomycin and tobramycin from acrylic bone cement
P. Seyral, A. Zannier, J. N. Argenson and D. Raoult

Antimicrobial practice
Monitoring serum concentrations for once-daily netilmicin dosing regimens
J. Blaser, C. König, H.-P. Simmen and U. Thurnheer

Correspondence
Serum monitoring and practicalities of once-daily aminoglycoside dosing
—A. P. MacGowan and D. S Reeves
—E. M. O'Shaughnessy and S. S. Das
—S. E. Parker and P. G. Davey (reply)

New directions in the diagnosis and treatment of pelvic inflammatory disease—M. Abbott

Evaluation of a surfactant, Dispersol LN, as an anti-swarming agent in agar dilution susceptibility testing—T. Winstanley, C. Edwards, D. Limb, K. Megson and R. Spencer

Comparison of E test with conventional agar MICs for quinolones—H. A. Holt, K. Bowker, K. A. Bedford, D. S. Reeves and A. P. MacGowan

An in-vitro investigation of the susceptibility of Enterococcus faecalis to clofazimine and B669—C. E. J. Van Rensberg and A. Van Straten

Antibacterial activity of clavulanate and tazobactam on Peptostreptococcus spp.—M. Reig and F. Baquero

Synergic activity of teicoplanin and ethambutol against Mycobacterium tuberculosis—T. M. Arain, B. P. Goldstein, R. Scotti and A. Resconi

The susceptibility of Haemophilus influenzae middle ear and sinus isolates to sulphisoxazole—P. W. Sheeran, A. L. Smith and P. L. Mendelman

Comparative activity of oral β-lactam antibiotics at clinically achievable levels against Haemophilus influenzae serotype b—C. Doit, S. Conort-Valentin, C. Sanchez, P. Mariani-Kurkdjian and E. Bingen

Killing kinetics of five fluoroquinolones against Moraxella catarrhalis at clinically achievable concentrations—F. Bourgeois and E. Bingen

Anti-human immunodeficiency virus type 1 activities of novel non-nucleoside reverse transcriptase inhibitors—H. S. L. M. Nottet, M. H. T. Ottema, M. R. Visser and J. Verhoef
CONTENTS

Leading articles
Dual-action antibiotic hybrids—J. M. T. Hamilton-Miller 197
Oral prophylaxis in biliary tract surgery—C. S. McArdle 200

Review
Administering amphotericin B—a practical approach
S. H. Khoo, J. Bond and D. W. Denning 203

Original articles
Susceptibility of Moraxella catarrhalis isolates to β-lactam antibiotics in relation to β-lactamase pattern
C.-P. Fung, S.-F. Yeo and D. M. Livermore 215

In-vitro activity of five β-lactam/β-lactamase inhibitor combinations against consecutive isolates of the Enterobacteriaceae and Pseudomonas aeruginosa
J. C. McLauglin, A. L. Barry, P. C. Fuchs, E. H. Gerlach, D. J. Hardy and M. A. Pfaller 223

Kinetics and tolerability of intravitreal pefloxacin in rabbits

The treatment of irradiated mice with polymicrobial infection caused by Bacteroides fragilis and Escherichia coli
I. Brook and G. D. Ledney 243

Treatment of experimental Pneumocystis carinii infection by combination of clarithromycin and sulphamethoxazole
J. Alder, M. Mitten, N. Shipkowitz, L. Hernandez, Y. Hui, K. Marsh and J. Clement 253

Experimental chemotherapy of tuberculosis using single dose treatment with isoniazid in biodegradable polymers
P. R. J. Gangadharam, S. Kailasam, S. Srinivasan and D. L. Wise 265

Bioavailability and chemotherapeutic activity of clofazimine against Mycobacterium avium complex infections in beige mice following a single implant of a biodegradable polymer
S. Kailasam, D. L. Wise and P. R. J. Gangadharam 273

Pharmacokinetics of oral cefcanel daloxate hydrochloride in healthy volunteers and patients with various degrees of impaired renal function

The concentrations of clarithromycin and its 14-hydroxy metabolite in sputum of patients with bronchiectasis following single dose oral administration

Penetration of clarithromycin and its 14-hydroxy metabolite into middle ear effusion in children with secretory otitis media
L. Sundberg and A. Cederberg 299
